

Sensory Neuroscience I. Vision 3051

Winter 2008

Professor: K.R. Duffy
E-mail: kevin.duffy@dal.ca
Office: Psychology 2338
Department of Psychology
Office hours: Monday 10:30am - 12:30pm

Teaching Assistant: *****
E-mail:
Office: Psychology 4257
Office Hours: Tuesday 1:00pm – 3:00pm

Lectures: Monday, and Friday 9:30am – 10:30am
Lab Wednesdays 9:30 – 11:30
RM 4258 LSC

This class will communicate details of the visual system's structure, function, and development. The lecture component of the class will inform the laboratory projects, which students will complete independently, and which will cover a multitude of topics ranging from perception to neuroanatomy.

Students with disabilities:

Students with permanent or temporary disabilities who would like to discuss classroom or exam accommodations are asked to come and see me as soon as possible.

Grades:

There will be a mid-term exam, 3 lab reports, 3 quizzes, and a final exam. Exams will test your knowledge on material covered up to and including the lecture before the exam. Exams will comprise a mixture of multiple choice, short-answer, fill in the blanks, and essay-type questions. You may also be required to label diagrams or graphs.

Make-up examinations will not be permitted for any reason.

Lab report requirements will be discussed in class.

Evaluations:

- Mid-Term - 20% of final grade
- Lab Reports - 36% of final grade (12% each)
- Quizzes - 9 % (3% each)
- Final Exam - 35% of final grade – Based on material from the entire semester.

Important Dates:

- Jan. 23 - Quiz on Paper #1
- Feb. 4 - Lab #1 Due
- Feb. 16 - Mid-Term Exam
- March 6 - Quiz on Paper #2
- March 13 - Lab #2 Due
- April 3 - Quiz on Paper #3
- April 8 - Lab #3 Due

Grades:

90-100	A+
85-89	A
80-84	A-
75-79	B+
70-74	B
65-69	B-
60-64	C+
55-59	C
50-54	D
0-49	F
